

*Downy soft bookcovers*

# Pillow Book Jacket

**T**his invention protects your valuable textbooks at the same time as it provides you a place to close your eyes and concentrate without distraction on what you've just read. It consists of a spandex book sleeve designed to fit most standard textbooks, sewn together with a pillowcase.

Slip a small pillow in and protect your textbook against the shock of sudden drops at the same time as you turn your book into a comfortable quiet-time place.
